How could this benefit me?

Less than 1% of public school teachers are ESL certified, meaning there is a high demand for teachers with these skills.

In 2016, 32 states declared a shortage of ESL certified teachers.

How do I earn my ESL Specialist Certification?

- 15 credit hours are required, which include an ESL field experience.
- The coursework is completed entirely online.
- The required field experience can be conducted in your own classroom, building, or district.
- The program can be completed in as few as two or three semesters.
