For many students, the Philadelphia Urban Seminar has been a life altering event. So, when you ask yourself “Why Urban Seminar?” the answer has to be “for the experience.”

⇒ Gain practical hands-on experience in inner-city classrooms with communities whose culture and race may be different from your own.
⇒ Participate in a community activity project where you will interact with students, parents, and community leaders.
⇒ Work on volunteer community projects identified by leaders at the Norris Square Neighborhood Center.
⇒ Attend professional development seminars conducted by Philadelphia teachers & interact in learning forums with preservice teachers.
⇒ Promote networking and support among education students from several universities.
⇒ Visit historical and cultural areas as well as museums.

Informational Meetings
In early November
Submit your application of interest and
Watch for the email
