

Fifth Annual ASM MATERIALS CAMPSM

Edinboro University
June 16-17, 2010

WANTED: High School Science, Math & Technology Students!

Who:

- Students entering their **Junior** or **Senior** year in high school in fall, 2010.
- Highly motivated inquisitive learners with math and science aptitude.

What:

- Two-day camp utilizing hands-on learning principles of applied math, physics, and chemistry.
- A very unique team-based, intensive problem solving science experience under the direction of distinguished industry leaders and college faculty.
- Combination of mini-demonstrations and field trips with extensive involvement in laboratory facilities to actively explore materials science & engineering principles in practice with local industry.

Where & When:

- Edinboro University, June 16-17, 2010. Day 1 will be at Edinboro University's main campus, and day 2 will be at Edinboro University's campus in Meadville, PA-The Joseph T. Buba Center.

Cost:

NONE! Students receive **FREE** meals, tuition, gifts and knowledge.

How to apply:

- Applications are available from math and science faculty and your guidance counselor. Applications must be postmarked by March 26, 2010.
- Required information includes report card, school transcript and one letter of recommendation. Applications not including required information will not be considered.

Who decides?

- Students should have basic knowledge or interest in algebra, chemistry, and physics and want to learn more about engineering and materials science as a possible college major and career. This is a competitive application process due to the limited number of seating.

What others are saying:

- Nicole Shuttleworth, student from Girard, PA "I was lucky enough to be a part of Materials Camp. I had a chance to experience engineering hands-on in a way that gave me a chance to understand the field and how exciting it can be. I met some extraordinary people, not only my peers, but also the teachers, advisors, and speakers. I was amazed at the amount of talent and intelligence that was volunteered just to help us students."

Questions?
