Military Credit for
Health and Physical Education Courses

If you are enrolled at Edinboro University with veteran status, you may be eligible to receive credit for health and physical education courses.

Students who have a DD Form 214, Release or Discharge from Active Duty, verifying a minimum of eight weeks active duty with character of discharge as honorable may submit documentation to the Office of Records and Registration for evaluation. The document you submit must be a certified copy of the original “Member 4” copy of your DD214. (Your form must be certified at a courthouse, not notarized by a notary public.)

If you are eligible for the award of health and physical education credits, the following two courses will be added to your academic record:

- HPE 105 Health - 2 credits
- HPE 063 Physical Fitness - 1 credit

Although these courses fulfill the requirements for health and physical education in Edinboro University’s General Education Requirements for most curricula, you should consult your academic advisor to identify where the courses would best be used in your specific curriculum.

If you wish to apply for the award of these credits, please send documentation to the following address:

Office of Records and Registration
