

Undergraduate Program Data Analysis Report

Program Name: HPE

Date:

Contact Person: Ruth Stauffer

Directions:

1. Review the program assessment data located in D2L.
2. List the 6 to 8 assessments for each program in the box provided for Program Assessments. Examine the data collection for each program. Be sure to review both the fall and spring data collection. Answer the following questions for each program assessment placing the information in the appropriate column:
 - What does the data indicate for your program?
 - What areas of concern if any do you have regarding this assessment?
 - What recommendations do you have regarding any revisions for this assessment?
 - What program changes if any does this data suggest?
3. Save the template as a Word document and submit it to the NCATE Assessment Committee via a D2L dropbox provided in the Accreditation-NCATE link by April 9th .

Undergraduate Unit Data

Program Assessment	Data Analysis	Recommendations	Implementation Date
Praxis II	Latest scores available show that completers are consistently above the national average on sub-scores while obtaining a 100% pass rate.	None	None
Grades	HPE 314 & 315 have lowest average earned scores. All completers maintaining C or above as required.	Courses recently realigned to standards to ensure appropriate course objectives.	None
Field Lesson Plan	Data consistently demonstrates that completers are at the acceptable or target level for planning &	Rubric revised according to NASPE recommendations. Data still shows same trend for completer ability to plan.	Fall 2011.

	preparation.		
TCPP	On average, 95% of Completers in Fall 2010 and Spring 2011 were at or above the acceptable level on all areas covered by the TCPP. Lowest scores were seen in the area of Disposition in Spring 2011 where completers scored consistently below the Unit average.	Since this may be a 1 semester issue – wait to compare Fall 2011- Spring 2012 data to determine trend. Implement Unit initiative to focus on disposition by placing disposition statement in all syllabi and reviewing the intent of this statement with students when reviewing syllabi.	Fall 2012
IAP	Completers all score at the acceptable or target level on all criteria of this Unit assessment.	None	None
Adapted Phys. Ed Plan	Completers consistently score in the acceptable or target level on all criteria of the rubric. Rubric was revised to meet recommendations of NASPE in Fall 2011 with the same type of results.	None	None
Tech Survey	The latest Tech Survey results – a Unit assessment – demonstrates that students are comfortable with mainstream technologies such as word processing, internet applications, powerpoint, spreadsheets, etc. Areas of concern – demonstrated as “weak” in both knowledge and application – were legal & ethical issues, and privacy issues.	Add this as a course objective to HPE 384 and instruct accordingly.	Fall 2012
	All completers are scoring at the acceptable or target	None	None

PDE 430	level on all criteria.
