

## Undergraduate Program Data Analysis Report

Program Name: SEDU Math

Date:

Contact Person: Denny Buckwalter/Whitney Wesley

### Directions:

1. Review the program assessment data located in D2L.
2. List the 6 to 8 assessments for each program in the box provided for Program Assessments. Examine the data collection for each program. Be sure to review both the fall and spring data collection. Answer the following questions for each program assessment placing the information in the appropriate column:
  - What does the data indicate for your program?
  - What areas of concern if any do you have regarding this assessment?
  - What recommendations do you have regarding any revisions for this assessment?
  - What program changes if any does this data suggest?
3. Save the template as a Word document and submit it to the NCATE Assessment Committee via a D2L dropbox provided in the Accreditation-NCATE link by April 9<sup>th</sup>.
