How to select the correct CITI module for you

**Student Researchers**

After registering for CITI you will be asked a series of questions to identify the modules you are to complete.

For Student Researchers in response to *Questions #1* click the “Student Researchers” radio button

The RCR modules identified in Questions #5 are optional – you may elect to take either the RCR for Social & Behavioral Sciences or Art & Humanities depending on your discipline or not complete the RCR portion of the CITI.
