Recommended for Approval By David M. O'Dessa, Vice President for Administration and Institutional Advancement

Approved By Foster F. Diebold, President on January 12, 1993

Review Date: As Required

---

### **INTENT**

To provide for crowd control at events on the Edinboro University campus.

### **POLICY**

Crowd control is a very important consideration at events on the campus of Edinboro University. The safety of all persons and the protection of University facilities may require the presence of University Police at campus events. The University will determine when officers will be assigned to such events.

The officers assigned to regular patrol duties will assist in the control of traffic and parking when needed. These officers will provide part-time coverage of minor events by observing crowd conditions and behavior as time and other duties permit.

The Institutional Fire and Safety Specialist will insure that all pertinent fire and safety regulations are enforced at all campus events.

The Athletic Director and the Chief of Police will coordinate their efforts at crowd control by reviewing the need for police officers at the beginning of each major sports season and significant athletic event.
