H. Fred Walker, President

Review Date: As Required

INTENT

It is the intent of this policy to establish the responsibility of students enrolled in off-campus courses with respect to Health Center, University Center and Student Activity Fees. It is understood that students enrolled in off-campus experiences (such as student teaching, internships, and courses offered at extension locations) may not have the same opportunity to access Health Center and Student Activity services and programs as would Edinboro main and Porreco College campus-based students.

POLICY

Students who are taking all of their credit courses during a semester off-campus (anywhere but the Edinboro main or Porreco College campuses) will have the Health Center, University Center and Student Activity fees automatically waived for that semester. Students who are taking credit courses on the Edinboro main or Porreco College campuses during a semester must pay the Health Center, University Center and Student Activity fees pro-rated according to the total number of credits in which the student is enrolled regardless of the number of off-campus credits.

Students who are taking all of their credit courses during a semester off-campus who choose to access the Health Center, University Center or Student Activity services and programs (for which they would not have been billed) will be assessed the full fee.
