OFFICE USE ONLY:

Updated Initials & Date: _____

c. Dean, Graduate Program Head, Executive Director for Graduate School, Department Chairperson, Advisor, Student

Conditions for the 4 + 1 MSW Program

1. Students may enroll as an MSW 4+1 student under the following conditions:
 - a. Students completes a 4+1 application;
 - b. Student has achieved 75 credits of coursework toward his/her bachelor's degree;
 - c. Student has achieved, and maintained through graduation with student's bachelor degree, a GPA of 3.00 or higher in the BS Psychology program.
 - d. Student may be admitted to the program without meeting these requirements upon the MSW Program Head and Dean of the College of Science and Health Professions approval;
2. Student must meet the prerequisites for all graduate courses to which she/he seeks to enroll;
3. Under PASSHE Procedure 2016-25-A, students may take up to 24 credits of MSW coursework at the 600-700 level and count these 24 credits toward both their undergraduate and graduate degrees. Any coursework taken beyond 24 credits must be identified by the student as either undergraduate or graduate and may not be used toward completion of the requirements of both degrees.
 - a. Upon completion of the undergraduate degree, up to 24 credits of graduate coursework will be counted toward the MSW degree. Any graduate credits taken beyond 24 credits will only count toward the undergraduate degree; however, during the final semester of enrollment in the bachelor's degree, the student may enroll in both undergraduate and graduate coursework. To the extent this coursework is NOT used to meet the requirements for undergraduate coursework and exceeds the 24 credits that may be used for both the undergraduate and graduate programs, said coursework will appear only on the student's graduate transcript.
 - b. During her/his final semester, students may enroll in additional graduate courses beyond the three that count toward the undergraduate degree; however, any graduate courses enrolled beyond these three will be billed at graduate rates (NOTE: students should consult with financial aid to determine how this might impact financial aid for this semester);

For clarity, to complete an MSW, the student will be required to complete an additional 36 credits of graduate coursework over-and-above credits required to complete the undergraduate degree. Said 36 credits shall include any graduate coursework taken during his/her last semester taken for graduate credit only, as outlined above, with the understanding that the student must consult with financial aid prior to enrolling in graduate courses that semester.
