Cumulative Credits Earned: _____ Cumulative Grade Point Average: _____

Pursuant to PASSHE Procedure/Standard 2018-34, a student who simultaneously meets all of the degree requirements for two undergraduate degrees may obtain two degrees, subject to the following conditions:

1. The student must earn a minimum of 120 credit hours total. Note that, in order to meet the degree requirements of certain combinations of undergraduate programs, the student may have to earn more than 120 credit hours.
2. The student will be assigned an academic advisor for each degree program.
3. The student and the chairperson of both majors will develop a plan of study for completing each degree program.
4. For record-keeping purposes only, the student, on the Simultaneous Dual Degree Request form, shall designate one of the degrees as the "first" degree and one as the "second" degree. Designating one degree "first" or "second" does not make one degree of greater or lesser significance than the other.
5. A student's academic transcript will list both degrees, while the student will be issued two diplomas, one for each degree earned.
6. When applying for graduation, the student will clearly indicate that the student is applying to be awarded two degrees.
7. If a student wishes to earn more than two degrees simultaneously, the student must obtain permission from the dean or deans of the degree programs.
8. If a student no longer wishes to pursue two degrees simultaneously, the student must so notify the Registrar in writing.
9. The student will complete the requirements of the degree programs **using regularly scheduled courses.**

***See list of codes for available majors and concentrations on reverse side of this form. Check with the Office of Records and Registration for exceptions.**

My signature attests to the fact that I have read and understand the conditions of the simultaneous dual degree.
